Visionaire Lighting

"The Visionaire Polera - Induction lighting fixture that was delivered to the City of Chula Vista at our request performed magnificently, and was hands down the best of all the induction products tested."

Kenny Perez

Lighting Consultant - Nate Mullen Visual Concepts

When it Comes to **ROADWAY LIGHTING...**  
All Signs Point to **VISIONAIRE!**

Announcing the  
**POLERA - ROADWAY INDUCTION Luminaire!**

**A Lean, Green, Street Machine Offering the Same Brilliant Light... for LESS WATTS!**

#### INDUCTION ADVANTAGE

The Polera - Roadway Induction street light luminaire contains the best street light Induction Optical System available today.

Offering over 100,000 hours (20+ years) of maintenance-free lighting with the ability to produce maximum lumens far from the pole, the **Polera - RI** makes it possible to replace existing HPS street lights on a one-for-one basis for significantly less wattage, without sacrificing light meter levels.

Higher light levels. Better light uniformity. Municipalities improve visibility and safety for vehicles and pedestrians, all while reducing power costs.

#### SLEEK DESIGN

Available in three color temperatures (3500, 4100 and 5000 Kelvin) and two roadway optical distribution patterns, the **Polera - Roadway Induction** is supplied with a cast aluminum mast arm adaptor for easy mounting to a standard roadway mast arm.

#### CLEVER CONSTRUCTION

The **Polera - RI** has tool-less housing and reflector entry systems, and a removable ballast assembly that make those infrequent road-side replacement tasks a breeze. Easier maintenance saves money.

#### DARK-SKY FRIENDLY

The **Polera - RI** is certified by the International Dark-Sky Association to restrict light trespass, glare and light pollution for neighborhood-friendly roadway lighting.

To compliment the **Polera - Roadway Induction**, Visionaire Lighting offers the matching Polera and Polera LX fixtures.

Offering more for less ... the **Polera - Roadway Induction** luminaires are perfect for your next new construction or roadway retrofit project.
