

"At Riviera we try to provide the best equipment, technology, and coaching for our membership. We recently retrofitted four of our courts with Visionaire's new Advantage Tennis Court Light Fixture. Our light levels more than tripled, increasing from 45 to 50 foot candles with up to 180 foot candles at the net, 177 at the service line, and 129 foot candles behind the base line after the new fixtures were installed.

Our members and instructors are ecstatic with our lighting upgrade. I know that the level of play and fun at our club will increase with these new fixtures."

Kim Perino, Director of Tennis
Riviera Country Club, Pacific Palisades, CA

Actual Light Readings at Riviera with (8) 1000 Watt Fixtures:
