

California Aria

Contemporary Architectural Styling Meets Today's Environmentally-Friendly Performance

Visionaire Lighting announces a new addition to our Aria Series ... **the California Aria.**

This contemporary take on traditional styling features state-of-the art photometric performance offered in a variety of sources ... LED, Induction and HID.

Choose VisionBar™ LEDs to 125 watts, Induction to 165 watts or HID to 400 watts.

Then create your unique style from four fixture shade + four finial option combos:

Cal-Aria 1

Cal-Aria 2

Cal-Aria 3

Cal-Aria 4

The **California Aria** boasts:

- A patented Vision™ Reflector System that facilitates maximum pole spacing.
- A Dark-Sky approved, full-cutoff flat lens design.
- Tool-less access to the lamp (standard for all Aria family products), with a hinge and latch supported housing top that swings upwards.
- Tool-less access to the ballast.
- Twin-cast architectural mounting arms.
- Internal post top mounting that eliminates set screws and thru-bolts.
- Rich, architectural color finishes that blend with any design.

The beautiful, post-top **California Aria** luminaire is ideal for:

- College campuses.
- Schools.
- Street lighting.
- Office buildings.
- Retail centers.
- Pedestrian through-fares.
