

LED THE WAY AND SAVE! IT'S ELEMENTAL!

Visionaire Lighting Officially Unveils It's Newest Full Line of Outdoor LED Luminaires, the **ELEMENT SERIES!**

- SAVE on Maintenance
- SAVE on Energy
- SAVE the Planet

The latest word in LED (Light Emitting Diode) technology, the exciting **Element** is the stylish and efficient punctuation mark to our new millenia's greenest thinking. Every Element boasts top-of-the-line design features, such as:

1. VisionBar™ LEDs

- Ultra-Controllable
- Low Maintenance
- Money Savers

The **Element's** minimum 60,000-hour lamp life VisionBar™ LEDs offer the ultimate in longevity and controllability. Versatile LED functions include instant on/off; dimmability and endless control options. VisionBars™ are conveniently field replaceable, and make the **Element** compatible for use with our **Solar Vision Pole™!**

2. Heat Radiating Construction and Air Flow Pathways

Visionaire Lighting's Engineering Department has raised the bar for mastering heat dissipation to new heights by creating for its **Element Series** an extruded aluminum body with heat radiating fins, and integrated air flow pathways that optimize thermal management. This one-two punch design combo significantly extends the **Element's** lamp life above that of competitive manufacturers' products.

THREE FIXTURES TO CHOOSE FROM ...

1. Area

Visionaire Lighting's exciting **Element - Area** luminaire ushers in the latest LED technology with money-saving style and efficiency. Specifically constructed for parking lots, walkways and general areas, the modularly-designed Element is available in five sizes and wattages ranging from 50 to 300.

Mounting for the **Element** is a snap, thanks to the pre-mounted, cast aluminum arm and Quick Mount pole adaptor.

2. Roadway

Visionaire Lighting travels to the future with the new modularly-designed, aerodynamic **Element - Roadway luminaire**.

This stimulus-qualifying fixture is perfect for both retrofit and new roadway construction projects. The excellent uniformity of the Element - Roadway vastly improves safety conditions for vehicles and pedestrians by virtually eliminating fixture-to-fixture dark spots.

3. Garage/Canopy

Visionaire Lighting puts Light Emitting Diodes (LEDs) in one of their most logical environments -- overhead in enclosed spaces and heat-prone interiors with its contemporary **Element - Garage/Canopy luminaire**. Lighting bills drop and maintenance costs nearly disappear, thanks to the magic of LEDs.

A tool-less latch housing bracket makes mounting this **Element** a breeze.
